

## Affordable Website Design

Whether you already have a web presence or need to develop one from the ground up, Web Planet Design can help you develop long range, cost effective strategies to take advantage of the ever-changing digital marketplace.

After comprehensive analysis of your business, Web Planet Design implements the internet marketing plan and interactive web design that can help your business run intelligently and profitably.

Whether you want to create more effective communication channels, automate order fulfillment and accounting systems, or you simply want a site that will further your brand, our team can customize a solution for you.

- collect emails on your web site for email marketing campaigns
- email newsletters, saving postal costs
- email coupons or sale notifications, saving printing costs
- run surveys online and get customer feedback
- get site stats to help measure website traffic and marketing effectiveness for ROI
- analytical reports can show keyword effectiveness in search engine placement

Building better websites  
since 1996.
